UNITY. UNITY is an alternative to religions. It is a syncretic, secular, yet spiritual belief system and a charity to aid the education of children and adults; its specific aim is to provide secular education with an emphasis on syncretism and humanism. **U**NITY is a humanist movement propagating world peace, equality, tolerance and compassion and espouses a revolution toward a new world-order, as per J. Krishnamurti*. UNITY makes a stand against the bigoted and xenophobic beliefs of Donald Trump, Pauline Hanson, Marine Le Pen, Frauke Petry, Geert Wilders et al**. **T**he donations to UNITY will be distributed to various charitable organizations; UNITY will not provide charitable services itself … it is recognized that many non-governmental organizations exist with well established channels for providing those services; thus the aim is for UNITY to have zero administration costs. **T**he bedrock of UNITY is my book en.light.en.ment. The credo of UNITY are the 11 beliefs listed in my essay WHAT I BELIEVE. Importantly, UNITY is a charity and a creed … but not a religion; there is no God, guru, prophet or pope. **Carsten Burmeister**

His supporters work through non-profit foundations with several independent schools, based on Krishnamurti's views on education. Krishnamurti's subject matters included psychological revolution, the nature of mind, meditation, inquiry, human relationships and bringing about radical change in society. He stressed the need for a revolution in the psyche of every human.*
